They all look alike...but one is a CHAMPION!

Always there is a certain something about a champion that puts him in front of the general run. In boxing it is often known as "championship stuff." It could be called "championship temperament." Certainly "championship temperament" has made Wilson, a champion in his price class, as sound and honest as the day is long. This good back- 

bone man has a truly startling thing—head, heart and rich—yet refined, mild and easy. In a 

fighter, as in boxing, once you have met the champion you never will be whole 

satisfied with less than championship performance.
